

Make a Mobile

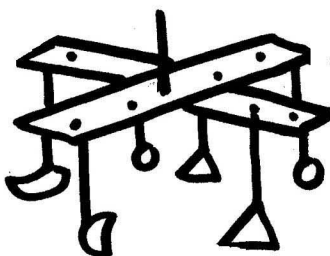

A mobile is a fun and easy way to display objects and images. There are many ways to create a mobile. Use the graphics in this book to create mobiles for classroom or home display. Look at the diagrams below to get some ideas for making your own mobiles.

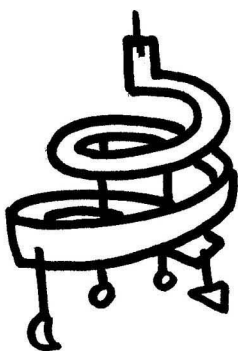

- Bend a wire hanger as shown. Use yarn or string to hang objects from the hanger. Tape, staple or paste the objects to the string.

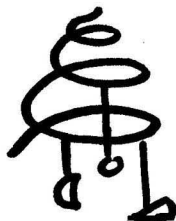

- Cut a strip of posterboard or cardboard as shown. Form a circle shape. Use a paper puncher to make holes on the strip. Hang objects from the holes.

- Join two strips of posterboard at the center, forming an "X" shape. Hang objects from the holes as shown.

- Cut posterboard into a spiral pattern as shown. Hang objects from the spiral mobile form.

- Use pipecleaners or thin wire to create a spiral mobile.
